SUMMARY

Experienced in the design and development of mobile and web with a background in both Graphic Communication, Computer Science at Cal Poly Slo and a UX/UI Design certification from UCLA Extensions. Specialized in user graphic design, testing, problem solving, team facilitation, and gamification.

EXPERIENCE

UCLA Extensions: Los Angeles, CA — UX/UI Design Student

August 2018 - February 2019 (Graduation)

- Redesigned and rebranded the Dogs Without Borders Website.
- Developed a prototype for a field trip teachers assistant.
- Performed a high fidelity redesign of Energy.Gov.
- Designed and prototyped an Airbnb travel planner feature.

Right View Pro: Rolling Hills, CA — Contract Web Designer

JUNE 2017 - JUNE 2018

Designed and developed a website for a Baseball Hitting Analysis software company using Craft CMS. rightviewpro.com

PROJECTS

Dogs Without Borders — Website Redesign

Crafted a redesign for the Dog's Without Borders non profit organization, focusing on visual design and navigation to boost user confidence in the website.

Child's Play Charity — Used Item Donation Process

Developed a user flow for Child's Play to allow for used item donations. Either by donation centers or mail in. Additionally designed a used item donation webpage and a "Shipping Wizard" for mail in donations.
